WHY THIS CHARACTER AND THIS DATE

Tommy Oliver fills the Hulk role.

- **He's the Hulk role, and it comes straight from canon.** He's the most powerful Ranger yet, turned into a weapon against his own side and controlled by an evil he can't escape on his own. Like the Hulk, the danger in his story is what's inside him.
- ***Red Ranger* already set this up.** Its mid-credits scene showed Tommy fighting Jason to a draw and Rita choosing him. Fans who caught that scene are waiting for this film.
- **The date:** *The Incredible Hulk* came out six weeks after *Iron Man*. A ten-week gap keeps that momentum while staying clear of *Thor: The Dark World* (November 8) and *Catching Fire* (November 22). Opening the day after Halloween also suits a story about a hero turned evil.

01 • TITLE: REAL AND DECOY

Green with Evil, shot as Undertow

- **Real title:** *Green with Evil*, the actual title of the canon five-part arc. Every fan will recognize it.
- **Decoy title:** *Undertow*. It sounds like a coastal thriller, which covers the ocean shoots for the Dragonzord rising from the sea and the darker tone, without hinting at Power Rangers.

02 • WHOSE FILM IT IS

Tommy Oliver, the Green Ranger

- Tommy is the lead, and the film follows his corruption, his rampage and his redemption.
- **Faithfulness lock:** in canon, Jason is the one who breaks the spell and the whole team fights Tommy. All five original Rangers are in the film at full strength, and Jason is Tommy's opposite number, the way *Hulk* set Bruce Banner against the Abomination and the army.

03 • WHEN AND WHERE IT'S SET

MGU Year One: fall 2013, weeks after Red Ranger

- **When:** fall 2013, a few weeks after the events of *Red Ranger*, which come earlier on the master timeline.
- **Where:** Angel Grove (the Youth Center, Angel Grove High and Ernie's), the Command Center, Rita's Moon palace, the **Dark Dimension**, and the Pacific coast where the Dragonzord rises from the sea.

04 • WHAT IT'S ABOUT

The best of us, turned against us

- Tommy Oliver, the new kid in Angel Grove, has impressed everyone, including Rita Repulsa. She calls him to her Moon palace, gives him the **Green Power Coin** and binds him to her with a spell. Rita now has her own Ranger: the **evil Green Ranger**.
- Tommy is stronger than any single Ranger. He takes on the team in combat and then invades the Command Center. He plants a virus in Alpha 5 and damages Zordon's systems so badly that **Zordon disappears**, cut off from Earth for the first time. Then Tommy plays the **Dragon Dagger** and calls the **Dragonzord** from the sea, and it fights alongside Rita's giant **Cyclopsis** against the Megazord.
- While Billy and Alpha work to bring Zordon back, the Rangers realize the Green Ranger is Tommy, and that the power holding him is Rita's **Sword of Darkness**.
- **Climax:** Jason is pulled into the Dark Dimension and has to fight Goldar and Tommy. In a duel between the two best fighters in Angel Grove, Jason destroys the Sword of Darkness, which breaks Rita's spell.
- **Ending:** Freed, Tommy turns down Rita and accepts Zordon's offer. He joins the team as the sixth Ranger, with the Dragonzord now fighting on the Rangers' side. The original five become six.

05 • VILLAIN / ANTAGONIST

Rita Repulsa, with the evil Green Ranger as her weapon

- **Main antagonist: Rita Repulsa.** This is her cleverest plan in canon: rather than build another monster, she corrupts a human and turns the Rangers' own power against them.
- **Antagonist for most of the film: the evil Green Ranger,** Tommy under Rita's spell. He's at full canon strength, with the Dragon Dagger, the Dragonshield and the Dragonzord, and no Ranger can beat him one-on-one until the spell is broken.
- **Her forces:** Goldar, Cyclopsis, Finster, Squatt and Baboo, and the Putty Patrol.

06 • POST-CREDITS SCENES

Two scenes

- **Mid-credits: “The Candle.”** On the Moon, Rita, furious, has Finster make a **green candle**. She tells Goldar that when it burns down, the Green Ranger's powers will be hers again. This sets up *The Green Candle* and reminds fans that Tommy's power is borrowed.
- **End-credits: “The Survivor.”** At the Youth Center, Bulk and Skull loudly insist they could beat the Green Ranger, and Skull gets knocked into a bowl of juice. It's a light ending after the darkest film so far, and it keeps the Angel Grove regulars connected.

07 • SETTING UP THE BIG BAD

Showing that Zordon can be taken

- **The main setup is that Zordon gets cut off from the Rangers.** Tommy's attack shows that Zordon, stuck in the time warp, can be pulled away from the Rangers. That's the vulnerability Dark Specter exploits at the end of the saga when he captures Zordon. Fans who come back to this film later will see the setup.
- **The Sword of Darkness** carries the same symbols seen in Rita's palace in *Red Ranger*, the mark of a bigger evil she answers to. It's still unexplained, and it points toward the United Alliance of Evil.

08 • ITS OWN WORLD-BUILDING

The Dragon's world

- **The Green Ranger's power:** the Green Power Coin, the Dragon Dagger (both weapon and flute), the Dragonshield, and the **Dragonzord** rising from the sea.
- **Rita's magic gets deeper:** the Sword of Darkness, mind-control spells, the **Dark Dimension**, and Cyclopsis.
- **Tommy's life in Angel Grove:** the new student, his rivalry with Jason, and the beginning of his relationship with Kimberly, as in canon.

09 • MGU WORLD-BUILDING

The rules every later film builds on

- **Morphin Grid power can be corrupted.** The Power isn't only for good, and villains can make and control Rangers. That rule matters for every evil Ranger the MGU has later.
- **The sixth Ranger:** a Ranger who joins after the team forms. It's the template for the sixth Rangers who come in later eras.
- **Tommy runs through the whole saga.** In canon he goes from Green to White, then Red Zeo, then Red Turbo. This film starts the longest Ranger career in The Zordon Saga, and he'll be the character who ties its eras together.
- **The Dark Dimension** becomes a recurring place in the MGU.

How it builds on what Red Ranger started

- **Red Ranger launched the MGU.** *Green with Evil* shows it's going to last. It pays off the earlier film's post-credits scene, so fans start to realize these films are connected and the Secrecy Protocol's slow discovery keeps going.
- **It proves the MGU can go darker and still feel like Power Rangers:** a hero turned evil, the first great Ranger-versus-Ranger fight, and a Zord at full canon scale.
