WHY THIS DATE

August 23, 2019

- It's the anniversary weekend again, now a tradition for the original Rangers' solo films, and a weak weekend for competition. Disney, which owns the studio by now, keeps it clear of *Endgame* (April), *The Lion King* (July) and Fox's *Dark Phoenix* (June).

01 • TITLE: REAL AND DECOY

Blue Ranger 2, shot as Old Soul

- **Real title:** *Blue Ranger 2*.
- **Decoy title:** *Old Soul*. It sounds like a drama about growing up, and it hides the Orb of Doom's twist.

02 • WHOSE FILM IT IS

Billy Cranston, the Blue Ranger

- Billy is the last original Ranger still on the team. He's the one who sees the trap coming and the only one left standing when it springs.
- **Faithfulness lock:** Master Vile, the Metallic Armor and the Orb of Doom play out as in canon. All six Rangers are at full strength until the Orb strikes.

03 • WHEN AND WHERE IT'S SET

MGU Year Three: summer 2015

- **Where:** Angel Grove, Billy's lab, the Command Center and the Zeo Crystal vault, the Moon, and the M51 galaxy in the prologue.

04 • WHAT IT'S ABOUT

The fall

- **Master Vile**, Rita's father, arrives from M51. He's older and far more powerful than anyone the Rangers have faced, and he wants the **Zeo Crystal**.
- Billy is the first to realize that Vile's attacks are probing the Command Center's defenses. The team gains the **Metallic Armor** as in canon and fights Vile to a standstill, and Zordon has the crystal split and hidden across time and space.
- **Climax and fall**: Vile uses the **Orb of Doom** and turns back time on Earth. The Rangers are **turned into children**, too small to morph. It's the MGU's version of S.H.I.E.L.D. falling: the world the Rangers stood on is gone.
- **Ending**: Billy, the only one who can still think like the Ranger he was, stands with Zordon and Alpha. Zordon makes a call to a distant water world.

05 • VILLAIN / ANTAGONIST

Master Vile

- **Master Vile**, at full canon power: Rita's father and master of the Orb of Doom, who turns back time across the whole planet. Rita, Zedd, Rito, Goldar and the Tenguas serve under him.

06 • POST-CREDITS SCENES

Two scenes

- **Mid-credits: "Aquitar."** On a water planet, five aliens rise out of the sea and answer Zordon's call. This sets up *Alien Rangers*.
- **End-credits: "Tiny."** Bulk and Skull find a child-sized Rocky stuck at a vending machine. They have no idea who he is.

07 • SETTING UP THE BIG BAD

Vile bows to no one, almost

- Master Vile mocks Zedd and Rita as small-time. Then he speaks of a "Monarch" with the only respect he shows anyone in the film. Even the most powerful villain yet answers to something above him. The hierarchy of the United Alliance comes into focus.

08 • ITS OWN WORLD-BUILDING

Billy's world

- Master Vile and M51, the Metallic Armor, the Orb of Doom, and the Zeo Crystal vault.

09 • MGU WORLD-BUILDING

The rules every later film builds on

- **Time can be weaponized.** The Orb of Doom introduces time manipulation to the MGU, which matters again when the crystal shards are scattered through history.
- **Master Vile** becomes one of the Alliance-tier villains.

How it moves the phase forward

- It takes the Rangers away from Earth's defense entirely, which forces the MGU to look out into the cosmos for help.

This is a fictional, alternate-history development document created for creative purposes. Characters and events follow the original Power Rangers television series (Mighty Morphin through Zeo).
