WHY THESE CHARACTERS AND THIS DATE

The Alien Rangers of Aquitar fill the Guardians role.

- **They're the obvious Guardians.** Canon's *Mighty Morphin Alien Rangers* is a team of alien Rangers from a water planet who arrive to defend an Earth they don't understand. They're strange and unfamiliar to audiences and ready to become favorites, and the film opens the MGU to the wider cosmos.
- **The date:** November 1 is the MGU's slot (*Green with Evil* held it). It's a soft weekend, with *Terminator: Dark Fate* as the main competition, and two weeks before Disney/20th's *Ford v Ferrari*.

01 • TITLE: REAL AND DECOY

Alien Rangers, shot as Tidewater

- **Real title:** *Alien Rangers*, from the canon title *Mighty Morphin Alien Rangers*.
- **Decoy title:** *Tidewater*. It sounds like a coastal drama and hides Aquitar.

02 • WHOSE FILM IT IS

The Alien Rangers

- **Delphine** (White, leader), **Aurico** (Red), **Cestro** (Blue), **Tideus** (Yellow) and **Corcus** (Black), all at full strength.
- Billy and the child-sized Rangers have major roles, as in canon.

03 • WHEN AND WHERE IT'S SET

MGU Year Three: fall 2015

- **Where:** Aquitar, Angel Grove, the Command Center, the Moon, and the points in time where the Zeo Crystal's shards are hidden.

04 • WHAT IT'S ABOUT

Strangers defend Earth

- With the Rangers turned into children, the **Alien Rangers of Aquitar** come to defend Earth. They're powerful, honorable, completely baffled by human customs, and dangerously vulnerable. Aquitians have to **recharge in water**, and Earth's dry air wears them down.
- Rita, Zedd and Master Vile's monsters keep coming. The worst is **Hydro Hog**, who goes straight at the Aquitians' need for water. The Alien Rangers fight back with their **Battleborgs**.
- Meanwhile, the child Rangers go on missions through time to **recover the five Zeo Crystal shards**. On her mission in Africa, **Aisha** makes the canon choice to stay and sends a young woman, **Tanya**, forward in her place.
- **Climax:** the Alien Rangers' final stand while the last shard comes home.
- **Ending:** with the crystal complete, the Rangers are restored to their true ages. The Aquitians go home as legends, and Billy and Cestro part as friends.

05 • VILLAIN / ANTAGONIST

Hydro Hog and the Moon alliance

- **Hydro Hog**, the monster that threatens the Aquitians' very survival, under **Rita, Lord Zedd and Master Vile**, with Rito, Goldar and the TENGAS.

06 • POST-CREDITS SCENES

Two scenes

- **Mid-credits: "The Heist."** Rito and Goldar sneak into the Command Center and steal the **Ninja Power Coins**. Rito leaves something behind, ticking. This sets up *Power Rangers: Zeo*.
- **End-credits: "Dry."** Back on Aquitar, Corcus finally tries a human snack Billy packed for him, and doesn't like it.

07 • SETTING UP THE BIG BAD

His name is spoken

- Before she leaves, **Delphine** tells Zordon what the Aquitians fear most across the stars, and says his name on screen for the first time: **Dark Specter, the Grand Monarch of Evil**. The watcher fans have been tracking since 2013 finally has a name, and it's revealed in a theater, as the Secrecy Protocol requires.

08 • ITS OWN WORLD-BUILDING

Aquitar

- The water planet Aquitar, Aquitian culture and their need for water, the five Alien Rangers, the Battleborgs, and Hydro Hog.

09 • MGU WORLD-BUILDING

The rules every later film builds on

- **Earth isn't the only world with Rangers.** The Grid is galactic.
- **Tanya** joins the MGU, and Aisha's exit is completed.
- **Billy's bond with Aquitar** pays off in his canon future there.
- **The complete Zeo Crystal** is ready for Phase 3.

10 • ITS ROLE IN PHASE 2

How it moves the phase forward

- It takes the MGU into space, names the Big Bad and assembles the crystal that powers the next era.

This is a fictional, alternate-history development document created for creative purposes. Characters and events follow the original Power Rangers television series (Mighty Morphin through Zeo).
