WHY THIS DATE

January 17, 2020: released as dated

- Under the 2020 Release Strategy, any film opening before February 28, 2020 releases as dated. Dating the team film on MLK weekend, which *Bad Boys for Life* turned into a \$400M+ hit that year, gets it into theaters before the shutdown and keeps Phase 2 on schedule. China drops its date (theaters there closed January 23) and gets the film later.

01 • TITLE: REAL AND DECOY

Power Rangers: Zeo, shot as Clockwork

- **Real title:** *Power Rangers: Zeo*.
- **Decoy title:** *Clockwork*. It sounds like a heist thriller and quietly hides the Machine Empire.

02 • WHOSE FILM IT IS

The team

- The Power Rangers: Tommy, Rocky, Adam, Billy, Kat and the new arrival, **Tanya**. Every one of them is at full strength.

03 • WHEN AND WHERE IT'S SET

MGU Year Four: winter 2015–16

- **Where:** Angel Grove, the Command Center and its ruins, the new **Power Chamber**, the Moon, and the Machine Empire's fleet.

04 • WHAT IT'S ABOUT

The end of the Command Center

- Rito and Goldar's bomb goes off. **The Command Center is destroyed**, and the Ninja Coins are gone, as in canon. Zordon and Alpha survive, and the Rangers find the Zeo Crystal intact in the ruins.
- Then the sky fills with ships. The **Machine Empire** arrives: **King Mondo**, Queen Machina, Prince Sprocket, Klank and Orbus, and an army of **Cogs**. It's the MGU's Ultron: cold, mechanical and relentless. Even **Rita and Zedd run**, fleeing to M51, as in canon.
- Out of the rubble, Zordon builds the **Power Chamber** and the Zeo Crystal gives the team new power. The new **Zeo Rangers** are Kat (Zeo Ranger I, Pink), Tanya (Zeo Ranger II, Yellow), Rocky (Zeo Ranger III, Blue), Adam (Zeo Ranger IV, Green) and Tommy (Zeo Ranger V, Red). Billy becomes the team's full-time technical genius, as in canon.
- **Climax**: the **Zeo Megazord**'s debut against the Machine Empire's assault on Angel Grove.
- **Ending**: a new team, a new base and a new war. The Mighty Morphin era is over.

05 • VILLAIN / ANTAGONIST

The Machine Empire

- **King Mondo** and the royal family of the Machine Empire, at full canon power: an army so strong that Rita and Zedd abandon the Moon rather than fight it. Rito and Goldar's bomb opens the film.

06 • POST-CREDITS SCENES

Two scenes

- **Mid-credits: "The Map."** **Dark Specter** is shown in full for the first time, gigantic on his throne. Over a map of the galaxy, he moves pieces representing the Machine Empire, Rita and Zedd, and one more, a pirate's emblem, which fans will later learn belongs to **Divatox**. "Let them weaken each other."
- **End-credits: "Gold."** Outside the Power Chamber, a streak of golden light falls from the sky. This sets up *Gold Ranger*.

07 • SETTING UP THE BIG BAD

Dark Specter in full

- It's his first full appearance. It also establishes that the Machine Empire, Rita and Zedd, and Divatox are all pieces on his board: the United Alliance of Evil, one step before it formally gathers.

08 • ITS OWN WORLD-BUILDING

The Zeo world

- The Power Chamber, the five Zeo Rangers, the Zeo Megazord, the Machine Empire, and Billy's new role.

The rules every later film builds on

- **The Ranger bases can fall.** The Command Center's destruction sets the pattern for the Power Chamber's fall in Turbo.
- **The Zeo era** becomes the foundation of Phase 3.

10 • ITS ROLE IN PHASE 2

How it moves the phase forward

- It ends the Mighty Morphin era, reshapes the team and the board, and reveals Dark Specter in full. That's the bridge into the second half of The Zordon Saga.

This is a fictional, alternate-history development document created for creative purposes. Characters and events follow the original Power Rangers television series (Mighty Morphin through Zeo).
