WHY THIS CHARACTER AND THIS DATE

Zordon fills the Doctor Strange role.

- **The Doctor Strange role belongs to the saga's sage.** Zordon is the MGU's master of mystic power, and he exists inside a **time warp**, the closest thing in the franchise to the Time Stone. Like Strange giving up the Time Stone in *Infinity War*, Zordon's own sacrifice ends the saga.
- **The date:** Halloween weekend suits a mystical film, and it's soft competition with *Dune* in its second week and *Eternals* a week later.

01 • TITLE: REAL AND DECOY

Zordon, shot as Hourglass

- **Real title:** *Zordon*.
- **Decoy title:** *Hourglass*. It sounds like a period drama and hides the time warp.

02 • WHOSE FILM IT IS

Zordon of Eltar

- **Canon basis:** Zordon is a sage from **Eltar**. He fought Rita Repulsa, sealed her in a space dumpster, and was himself trapped in a time warp. The film tells that story.
- **Faithfulness note:** canon gives the facts but few details, so the film fills in around them without contradicting anything on screen.

03 • WHEN AND WHERE IT'S SET

10,000 years ago, plus a present-day frame in late 2016

- **Then:** Eltar and the war against Rita, 10,000 years ago.
- **Now:** the Power Chamber, after Eltar's call in *Blue Ranger 3*.

04 • WHAT IT'S ABOUT

The sage and the time warp

- **Frame:** Eltar's signal forces Zordon to tell Alpha 5 and Tommy what he has never told any Ranger: who he was.
- **Past:** Zordon, the greatest sage of Eltar, leads the war against **Rita Repulsa** at full, ancient power. He comes to understand the Morphin Grid's mystic side, and he sees that defeating her will cost him his own place in time.
- **Climax:** Zordon seals Rita in the space dumpster and pays the price, as in canon: he's caught in the **time warp**, alive but outside time. That's where he has been ever since, guiding the Rangers.
- **Ending:** back in the present, Zordon tells Alpha that Eltar is calling him home, and that he isn't ready to leave the Rangers yet.

05 • VILLAIN / ANTAGONIST

Rita Repulsa, 10,000 years ago

- **Rita Repulsa** at the height of her ancient power, in the war that made her name across the stars.

06 • POST-CREDITS SCENES

Two scenes

- **Mid-credits: "The Pirate."** Far from Earth, a pirate queen's submarine-ship chases a small, fleeing wizard across the stars. That's Divatox hunting **Lerigot**, which sets up *Alien Rangers 2* and *Turbo*.
- **End-credits: "Alpha."** Alpha 5, alone in the Power Chamber, says to no one, "Ay-yi-yi. Ten thousand years."

07 • SETTING UP THE BIG BAD

He was there even then

- In the ancient war, Zordon catches a glimpse of an enormous shadow watching from behind Rita's army: **Dark Specter**, already old and already patient. Zordon has always known what is coming for him.

08 • ITS OWN WORLD-BUILDING

The mystic side

- Eltar, the ancient war, the time warp, and Zordon's mastery of the Grid.

The rules every later film builds on

- **Eltar** is established as the place where Zordon will later be captured.
- **Zordon's time warp** is explained as the vulnerability Dark Specter exploits.

10 • ITS ROLE IN PHASE 3

How it moves the phase forward

- It gives the saga's heart his own story right before he leaves Earth, which makes his capture and sacrifice land harder.

This is a fictional, alternate-history development document created for creative purposes. Characters and events follow the original Power Rangers television series (Mighty Morphin through In Space, plus the 1997 Turbo film). Where canon is silent, the film fills the gap without contradicting it.
