WHY THIS DATE

April 26, 2024

- Exactly five years after *Endgame*, on a weekend where the only competition is *Challengers*.

01 • TITLE: REAL AND DECOY

Power Rangers: Countdown to Destruction, shot as Long Goodbye

- **Real title:** *Power Rangers: Countdown to Destruction*.
- **Decoy title:** *Long Goodbye*. It sounds like a drama, and the decoy says what the film is about. The real title is the canon finale.

02 • WHOSE FILM IT IS

Everyone

- Andros, T.J., Carlos, Ashley, Cassie and Zhane, the Space Rangers. Also: every veteran, the Alien Rangers, Trey, the Phantom Ranger, the Blue Senturion and Dimitria. At its heart, **Zordon**.

03 • WHEN AND WHERE IT'S SET

2018, then FIVE YEARS LATER: 2023

- The Astro Megaship, the Dark Fortress, KO-35, Aquitar, Triforia, Eltar, and Angel Grove.

04 • WHAT IT'S ABOUT

Countdown

- **Opening, 2018:** straight after *Chase into Space*. Andros gives T.J., Carlos, Ashley and Cassie the **Astro Morphers**, and they become the Space Rangers. Their first rescue attempt fails, and Zordon is moved deeper into Dark Specter's territory.
- **Five years later, 2023:** the Space Rangers are now hardened veterans of a long war. In the gap, Zhane woke up, the Psycho Rangers rose and fell, and Andros found out Astronema is Karone and lost her again. Zordon is close to fully drained.
- **The Countdown:** the Alliance invades every free world at once: KO-35, Aquitar, Triforia, Eltar and Earth. Every ally fights: the Alien Rangers, Trey, the Phantom Ranger, the Blue Senturion and Dimitria. In Angel Grove, ordinary citizens stand in front of the Rangers, as in canon. Bulk and Skull are at the front, and the veterans fight beside them unmorphed.
- **The betrayal:** **Darkonda** turns on Dark Specter, and the Grand Monarch dies taking his betrayer with him, as in canon. No Ranger beats him one-on-one.
- **Zordon's sacrifice:** Andros reaches Zordon on the Dark Fortress. Zordon tells him to shatter the tube. Andros does, and **Zordon's energy wave** sweeps the universe. The armies of evil are destroyed. Rita and Zedd are purified into humans, Divatox is purified, and Astronema becomes **Karone** again.
- **Ending:** the Rangers of every era stand together under a clear sky. Zordon is gone, and the universe is free.

05 • VILLAIN / ANTAGONIST

Dark Specter and the full Alliance

- **Dark Specter** at full power until Darkonda's canon betrayal, with Astronema, Ecliptor, Darkonda, Divatox, and Rita and Zedd.

06 • POST-CREDITS SCENES

None

- Like *Endgame*, there are no post-credits scenes. Only the sound of Zordon's voice saying, "May the Power protect you."

07 • SETTING UP THE BIG BAD

Payoff

- The saga's Big Bad dies as canon dictates: brought down by his own Alliance's treachery, while Zordon's sacrifice wipes out what's left of his empire.

08 • ITS OWN WORLD-BUILDING

The war years

- The Astro powers, the five-year war, the Countdown invasion, and the energy wave.

The rules every later film builds on

- **Zordon is gone.** A new era begins without him.
- **Rita and Zedd are human**, and **Karone is free**, ready for her canon future.
- **The MGU timeline catches up to the release calendar** (2023–24).

10 • ITS ROLE IN PHASE 3

How it closes the saga

- It ends The Zordon Saga the way canon ended it.

CANON NOTE • THE FIVE-YEAR JUMP

The one deliberate departure from canon

- In canon, *In Space* covers roughly one year. Putting the five-year jump in the gap after the opening act turns the search for Zordon into a five-year war, and the Space Rangers age from teenagers into young adults. Every canon event still happens and nothing is contradicted. Only the length of the war changes.

This is a fictional, alternate-history development document created for creative purposes. Characters and events follow the original Power Rangers television series (Mighty Morphin through In Space, plus the 1997 Turbo film). Where canon is silent, the film fills the gap without contradicting it.
