WHY THIS DATE

July 12, 2024

- Midsummer, like *Far From Home*, and clear of *Deadpool & Wolverine* (July 26).

01 • TITLE: REAL AND DECOY

Turbo 2, shot as Summer School

- **Real title:** *Turbo 2*.
- **Decoy title:** *Summer School*. It sounds like a teen comedy, which is half the truth.

02 • WHOSE FILM IT IS

Justin Stewart

- Justin was 12 in *Turbo*. After the five-year jump he's **17**, the same age Peter was in *Far From Home*.
- **Faithfulness note:** canon gives Justin no story after *Turbo*. This is the one Phase 3 film built entirely in canon's silence. It contradicts nothing, and its villains survive to appear later in canon.

03 • WHEN AND WHERE IT'S SET

MGU Year Eleven: 2024, months after Countdown

- Angel Grove, the Moon, and a world that now knows the Rangers' faces.

04 • WHAT IT'S ABOUT

Far from Zordon

- The universe is free and Zordon is gone. Angel Grove saw the Rangers' identities revealed during Countdown, as in canon, and the world is still adjusting.
- Justin, now a senior, isn't a Ranger anymore. Then **surviving Machine Empire generals**, who were out of reach of Zordon's wave, come back to the Moon with a plan built on deception and stolen Ranger technology.
- With the Space Rangers far away, Justin teams up with the **Blue Senturion**, his canon ally, and uses everything Tommy and Zordon taught him.
- **Ending:** Justin stops their plan, and the generals escape into the dark. They stay alive, because canon brings them back for *Forever Red*.

05 • VILLAIN / ANTAGONIST

The Machine Empire's surviving generals

- The Machine Empire remnant that canon later brings back. They're at full strength, and they get away.

06 • POST-CREDITS SCENES

Two scenes

- **Mid-credits: "Terra Venture."** On the news: Earth is building a space colony to carry humanity to new worlds. It's the first hint of the next saga.
- **End-credits: "Karone."** On KO-35, Karone, free at last, holds a pink stone in her hand. It's the first hint of her canon future as a Galaxy Ranger.

07 • SETTING UP THE BIG BAD

The next saga

- Dark Specter is dead. The film's job is to hand off, pointing to the Lost Galaxy and the evil beyond the reach of Zordon's wave.

08 • ITS OWN WORLD-BUILDING

Justin's world

- Justin at 17, the Blue Senturion, and Angel Grove after the reveal.

09 • MGU WORLD-BUILDING

The rules every later film builds on

- **A world after Zordon**, with the Machine Empire remnant set up for *Forever Red* and Terra Venture set up for the next saga.

How it closes the phase

- It closes Phase 3 and The Zordon Saga, and points the MGU toward whatever comes next.

This is a fictional, alternate-history development document created for creative purposes. Characters and events follow the original Power Rangers television series (Mighty Morphin through In Space, plus the 1997 Turbo film). Where canon is silent, the film fills the gap without contradicting it.
